DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-4, drawn to an engine having a crankcase ventilation sytem, classified in class 123, subclass 572.
- II. Claims 5-19, drawn to an engine having studs through which lubrication is conveyed, classified in class 123, subclass 196r.
- III. Claims 20-22, drawn to an engine, which utilizes an air cooling system including a turbofan, classified in class 123, subclass 41+.
- IV. Claims 23-26, drawn to an alternator, classified in class 290, subclass 5.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as an engine having a crankcase ventilation system, Invention II has separate utility such as engine having studs through which lubrication is conveyed, Invention III has separate utility such as an engine which utilizes an air cooling sytem including a turbofan, and Invention IV has separate utility such as an alternator. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
